#### RECOGNIZING JESSICA NALEPA

#### HON. MICHAEL T. MCCAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 8, 2017*

Mr. MCCAUL. Mr. Speaker, I rise today to recognize Jessica Nalepa, an outstanding member of my staff who is transitioning out of my office after seven years to share her talents with the administration.

A Virginia native, Jessi interned in my office while she was in school at George Mason University where she earned her Bachelor of Arts in Government & International Politics and Communications, graduating cum Laude. Despite her East Coast upbringing, Jessi soon became an honorary Texan through and through.

Her outstanding work as an intern swiftly led her to become a permanent part of my team as the Director of Scheduling. Continuing to demonstrate her talents and work ethic, she moved through the ranks of my office fast: first from Scheduler to Deputy Chief of Staff and then ending her service to me as my Chief of Staff.

Jessi has been an integral part of my team and has served dutifully as a public servant to

Texas-10 and the entire state. She also played an instrumental role in my personal growth here in Congress when she helped me in my campaign to become Chairman of the House Homeland Security Committee during the 113th Congress.

Possibly the toughest part of Jessi's job was balancing my duties to serve Texans through my personal office and simultaneously ensure the safety of all Americans through my work on the committee. Despite the challenges this posed on a daily basis, Jessi always went above and beyond. She managed these dynamics with professionalism, integrity, and a high degree of respect for the people who we serve. And, I'll add she accomplished all of this while earning a Master's Degree in Public Policy Analysis from George Mason University.

Jessi's dedication to Texas' 10th Congressional District and the U.S. House of Representatives is an extraordinary example of her strong commitment to her country and fellow citizens. Even though she is departing my office, Jessi will always be part of Team McCaul and I will be forever grateful for her work.

Jessi is possibly the hardest worker I have had the honor to know, and she will be sorely missed by all.

Mr. Speaker, I invite my colleagues to join me in thanking Jessi for her service to the great state of Texas and our nation, and wish her the very best of luck as she sets forth on the next chapter of her life.

#### PROVIDING RELIEF FROM THE FAILED OBAMACARE EXPERIMENT

#### HON. BRIAN BABIN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 8, 2017*

Mr. BABIN. Mr. Speaker, I promised the people of the Thirty-Sixth District of Texas that I would repeal Obamacare and replace it with conservative solutions. President Donald J. Trump was elected on this same platform.

Last week we came together to fulfill that promise.

After years of speeches, debates, elections and "show votes" that we knew would be vetoed or go nowhere in the Senate, last week's vote was the real deal.

This was perhaps the most important and consequential domestic policy legislation any of us will ever see.

To begin with, it serves as the largest entitlement reform of the Medicaid program in the program's history and eliminates the individual and employer mandate penalties. It also stops mandatory spending on large abortion businesses, such as Planned Parenthood, for one year.

It isn't the exact bill I would have written, but I am proud to say that I voted YES on the AHCA. While Republicans alone provided the votes to pass this bill, it was still the product of finding common ground to provide the American people with relief from Obamacare.

Members of our conference from every ideological stripe and every type of district came together to improve the bill and to secure its passage.

While we could certainly write a better one that allows for insurance sales across state lines, gives consumers better choices about the plans and benefits they want, and tears down the anti-trust exemption for insurers—the absurd tightrope we must walk to comply with the Senate's reconciliation rules has forced us to write this bill with one hand tied behind our back.

Like their colleagues here, Senate Democrats have made clear that preserving the failed experiment of Obamacare matters more than anything else, and that they would launch a fake, phony filibuster if anything came to the Senate that did not comply with the Senate procedure known as the "Byrd Rule."

I was extremely pleased to be part of House passage of AHCA last week and now look to the Senate to move the road blocks that continue to threaten our conservative agenda.
